

# Celtic Sisters

These sisters bring joy and beauty together in their fiery Celtic tunes!

*Havilah* is the violin player of the sisters, wielding the bow and fiddle as if she was born with it in her hands. She has performed on multiple CDs and danced her way across the stages of Irish & Scottish festivals throughout the US in the *Celtic Rock band Maidens IV*. When she's not creating musical moments with her Mom & sisters, Havilah can be found talking to her goats, walking with her husband Jonathan or eating dark chocolate!

*Heather* is the vocal diva, bodhran aficionado and drum player of the sisters. She also performed with the band *Maidens IV* and her vocal mastery and musical confidence is a thing of beauty. From performing light Opera to conquering Celtic stages alongside her sisters, Heather's notes of joy and wonder empower young and old. When not singing and playing, Heather's days are filled with her five wonderful boys and working alongside her husband Jeremy in their Plumbing business. But some of her favorite times are weekend camping trips with family.

*Tabitha* is the guitar hero, vocalist and composition virtuoso of this sister band. Her soulful writing, powerful rhythms and beautiful talent can bring you to tears or to your feet. Along with her sisters Havilah & Heather, Tabitha has also performed on multiple *Maidens IV* CDs and Celtic stages across the country. She can often be seen riding her horse, flying with her husband Chad and enjoying her three children Leia, Trenton and Aurea.

*Sarah* is the keyboard player in the band. Her flowing fingers and pure vocals create beauty and strength within each Celtic tune. Having studied music at a young age, it's impossible not to be drawn in by Sarah's talent and joy. Sarah can often be found snuggled on the couch reading fairy tales to her two beautiful daughters when she isn't busy working on homesteading projects with her husband Josiah.

*Mom* embodies the spirit of our sister band. She is the driving force behind all things art and music and wove us together from our first Celtic note. From sewing stage costumes to touring as sound tech while manning the pack-n-play and stroller, our Mom has done it all. When she's not playing music with us, she is working in her garden, rearranging her fish pond or taking a walk with Dad and their mastiff Eva.
